The superimposed rollermill Synthesis keeps the technical characteristics of the new rollermill Synthesis (see product brochure). Two pairs of superimposed grinding rolls enables two grinding passages.

This technical solution allows to reduce rollermill floor surface and to economize on pneumatic conveying system.

---

Questa soluzione tecnica permette di ottenere una riduzione della superficie del piano laminato ed un conseguente risparmio nella realizzazione dell’impianto di trasporto pneumatico.

The superimposed rollermill Synthesis keeps the technical characteristics of the new rollermill Synthesis (see product brochure). Two pairs of superimposed grinding rolls enables two grinding passages.

This technical solution allows to reduce rollermill floor surface and to economize on pneumatic conveying system.
